Guidelines For Contributions from Community Service

Here are guidelines we have established for our Committee to make grants

1. All funding must directly benefit the community of Kent
2. No funds will be used for operating expenses
3. Requests will avoid partisan political involvement or the funding of teaching or advocacy of religious doctrine.
4. Funding must be for an organization and not for specific individuals
5. Funding projects will be limited to one year. An additional request may be made the following year
6. A means should be provided for recognizing Rotary's involvement in funding the program
7. Awarding of funds approved will be made at a regularly scheduled meeting to a representative of the organization being funded.
